EXP-1

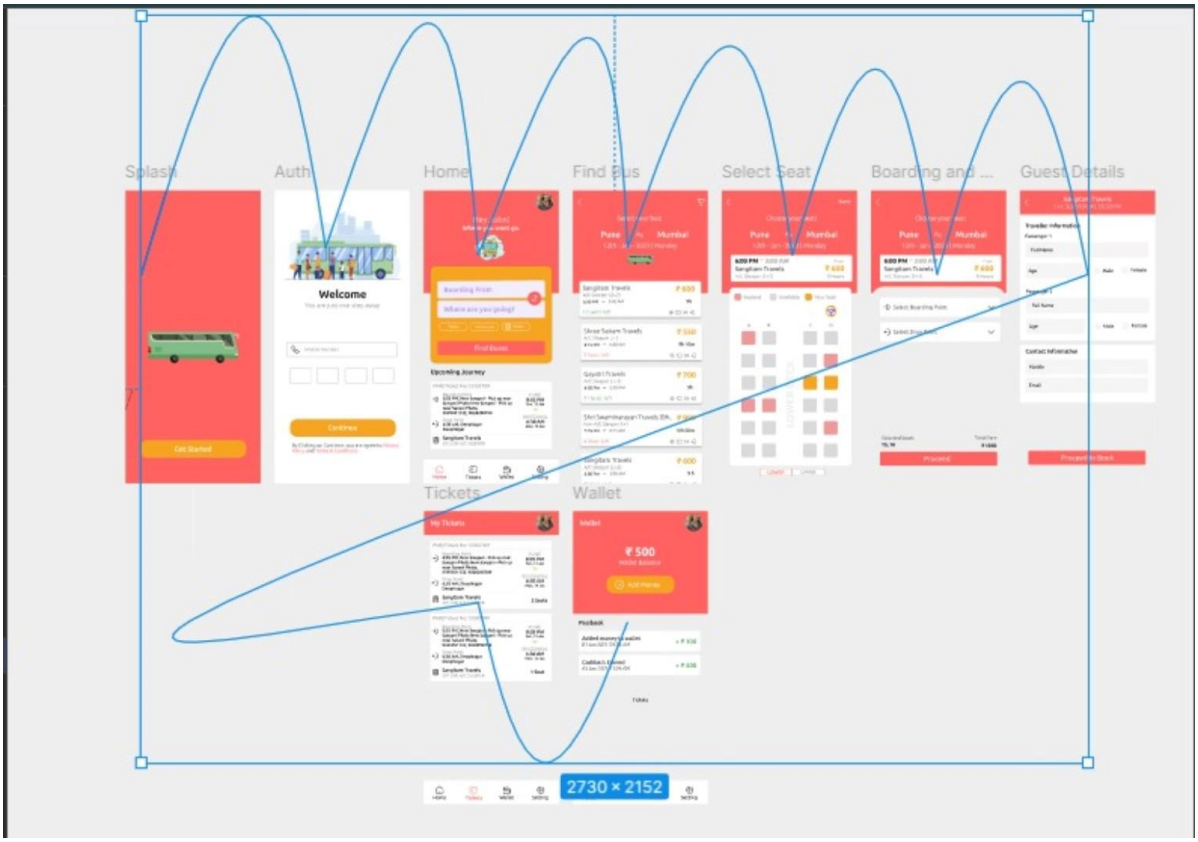

Aim:

To design a bus booking app using Figma.

Algorithm:

1. Log in to Figma.
2. Open the design page in Figma.
3. Design the app screens according to the required layout.
4. Give each screen a name and arrange the screens in order.
5. Connect the screens using the Prototype/Pen connection tool.

Implementation:

Result:

Thus, the bus booking app was successfully designed using Figma.
